Projects

SkillSync — *React, Node.js, MongoDB, JWT, RBAC*

- Built ERP modules for fees, exams, hostel, and attendance, with multi-role permissions.
- Designed scalable REST APIs and secure authentication (JWT + RBAC).

EduVerse — *HTML, CSS, JavaScript, MongoDB Atlas*

- Developed a smart learning dashboard for students and teachers.
- Implemented course management, user interaction, and data handling features.

iCam — *Python, TensorFlow, OpenCV, TTS*

- Trained TensorFlow model for high-accuracy FMCG object detection.
- Added real-time TTS feedback for visually impaired user accessibility.

GrowSkill — *React, Node.js, Express, MongoDB, IndexedDB, RAG Model*

- Built an offline-first ed-tech platform used by 50+ students with role-based dashboards.
- Implemented JWT authentication and 100% offline usability using IndexedDB sync.
- Added RAG-powered AI doubt-solving system.

Achievements

- **Runner-Up — PBL(Project Based Learning) Competition 2025**
- Leadership Role: **Co-Manager, Byte Community**
